CUSTOM MADE FURNITURE

Residential

Choosing the right furniture for your home is an important decision. Sometimes you need a marvelous dream item of furniture that you can't get from any store. Maybe it needs to fit in a very specific spot, or maybe it is an idea from a book or magazine that you want to see in real. We specialize in creating bespoke furniture items that are as unique and characterful as your ideas. We can modify an existing piece or build it from scratch. Coming up with your own modification or design gives your home a unique feel that can't be copied by anyone else since your own taste and preference are what shaped your design, and will be yours and yours alone.

Our bespoke, custom made furniture have the ability to even out odd shaped alcove spaces, under the stairs hide unwanted irregularities in walls and ceilings and generally make your home completely gorgeous with bespoke ideas that have been made to measure in any size required.

HOME IS NOT A PLACE IT'S A FEELING

It begins with a dream. The dream of a home appointed with bespoke hand crafted furniture so exquisite, it delights you every time you glance at it. Your furniture, whether it is designed for the kitchen, living room, bedroom or bath room, should be an integral part of your home and your life. Beautiful, practical, functional and, most of all, a unique expression of who you are and how you choose to live.

Our vast selection of material and accompanying accessories are designed to inspire and excite you and, when combined with our specially sourced timbers and palette of paint finishes, you will have a home graced with furniture that is completely original, comprising the highest quality materials and craftsmanship.

Your dream kitchen

Our bespoke and custom made kitchens give you complete freedom to have your dream kitchen made to your exact requirements. No need to compromise, we can make the style that suits you, stained or painted in the colour of your choice.

With a bespoke, custom made kitchen, anything is possible and nothing has to be a standard size. Whether the requirement is to hide wall support pillars by disguising them as part of a chimney breast or to build a larder to fit between a wall and a ceiling beam- you name it and we can solve the issue to make your kitchen really beautiful.
